

SHAPING NEW NORMS: PROFESSIONAL EDUCATION

Child welfare has felt the impact of the Covid-19 pandemic in almost every facet, from facility operations to fundraising to service delivery to hiring and training. With all of the current uncertainty around this global health crisis, it is critical that child welfare professionals remain resilient, prepared, and capable. **Now, more than ever, it is important that child welfare professionals seek out online/virtual continuing education that is both high quality and relevant to the challenges we're currently facing.** Below are a few online trainings we encourage you to explore. If you are aware of high quality, on-line, child welfare relevant trainings, especially around ethics and telehealth, please share those with your fellow child welfare colleagues and #getsharpstaysmart.
